

⚡ ZUUZ FOR DISTRIBUTION & TRADING

Approve POs, vendor decisions, and credit exceptions in minutes, with full context.

Your distribution business moves fast — but delayed approvals slow purchasing, stock availability, and customer deliveries. ZUUZ puts every decision in the hands of the right approver, with the full context they need, wherever they are. No more chasing emails, waiting on spreadsheets, or approving blind.

Purchase Order Approvals

Approve stock replenishment POs instantly with real-time inventory status, vendor lead times, and demand signals. Shelves stay full and orders ship on time.

Vendor Onboarding & Pricing

Review new vendor applications and pricing proposals with price history, margin impact analysis, and compliance checks all in one approval screen.

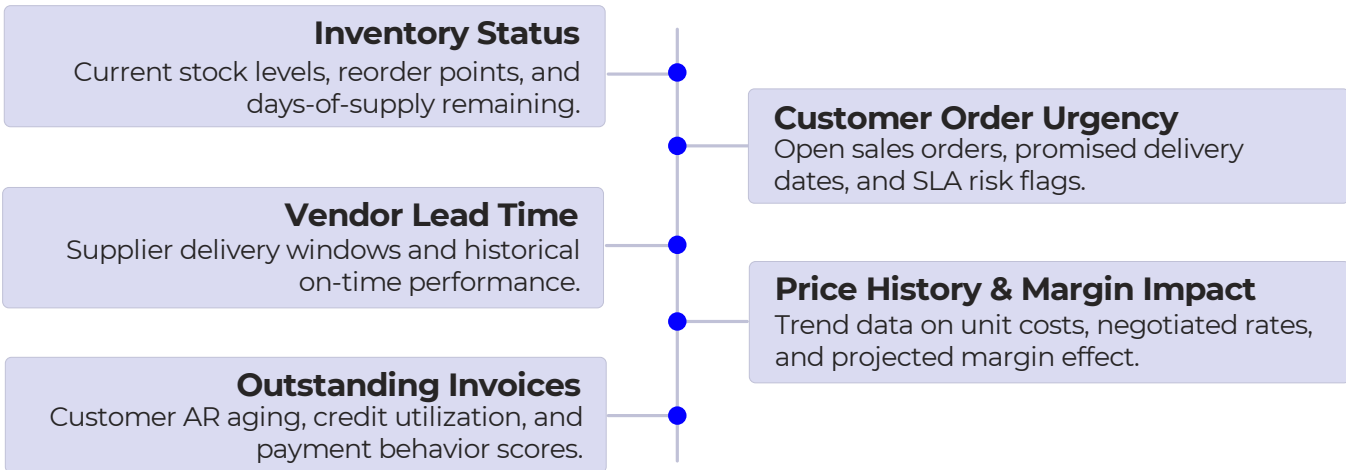

Credit Limit & Payment Term Exceptions

Grant credit extensions for key customers with full visibility into outstanding invoices, payment behavior, order urgency, and margin exposure.

The Context Pack: Everything You Need to Decide

Every ZUUZ approval request arrives with a **Context Pack** — a curated snapshot of the data that matters, pulled live from your systems.

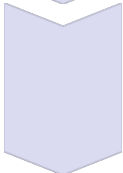

Seamless Decisions to Instant Action

ZUUZ doesn't just inform; it drives action. Once an approval is made, our secure write-back functionality instantly updates your ERP and CRM, eliminating manual data entry and ensuring real-time system alignment.

Securely Integrate Decisions with Your Systems

- 

Approve or Reject
Execute decisions instantly with mandatory reason codes for clear accountability.
- 

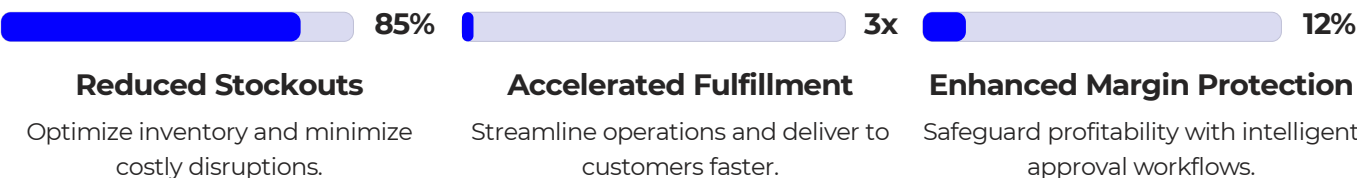

Adjust & Annotate
Effortlessly modify credit limits, pricing, or terms and add contextual notes.
- 

Delegate for Follow-Up
Seamlessly route tasks to the appropriate team member for subsequent actions or escalation.

Enterprise-Class Security

- Robust Identity Verification**
Leverage SSO, MFA, and role-based access to ensure only authorized personnel make critical decisions.
- Comprehensive Audit Trail**
Every action is meticulously timestamped and fully traceable, ensuring compliance and robust governance.

Tangible Business Impact
